

## Jougor MY by *Michael Young*

The MY range was created to offer a contemporary kitchen and bathroom solution with a fresh yet classic design approach.

In a market that is saturated with similar products, stainless steel lent itself the opportunity to work outside traditional boundaries.

The collection comprises a full range of products for the bathroom and kitchen, including faucets, shower systems and bathroom accessories. In a design language distinctly unique to Young, this ground breaking collection can find itself at home in both a contract and domestic market.
